James City, PA 16734

Dear Township Supervisors:

We support your decision to ban injection wells within your municipality.

It is a dangerous precedent to allow such an activity so close to a drinking water supply.

In our area, we have many springs, old and new wells, and hundreds if not thousands of orphan wells that have not been cared for, or capped. Our reservoir is fed by ground water and springs.

We are highly opposed to injection wells anywhere.

Sincerely,

Ridgway Township Board of Supervisors
